

○○○ RACING SERIES - HIGH PERFORMANCE BRAKE CALIPERS

○○○ JOINING THE FLAGSHIP OF OBP MOTORSPORT

With the highest level of engineering comes the new 'Racing Series' High Performance Brake Calipers. The 'RS' Brake Calipers are produced from Aerospace Aviation Aluminium Alloy which is Forged Monoblock before being finished in an oxidised grey coating. Our RS range features 6 Pot and 4 Pot brake Calipers that are specifically designed for performance and racing on the track.

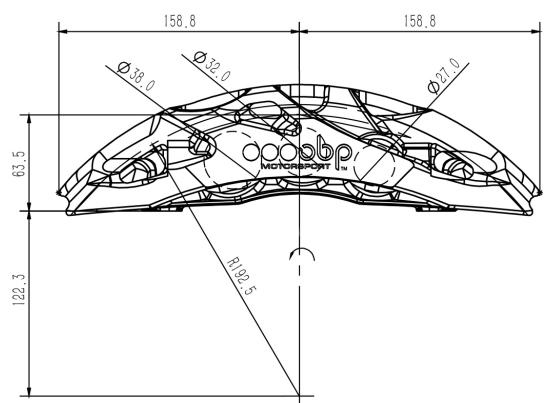

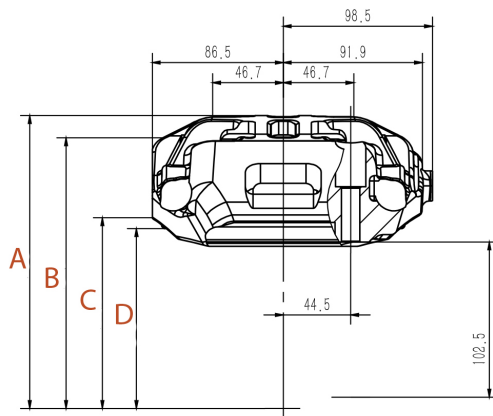

The single caliper weighs 3kg and features a hollow design to allow maximum heat dispersion.

PART NO.	POTS	DISC SIZES	DISC THICKNESS	PISTON SIZE	WEIGHT
OBP-RS-6	6 POT	332-378 mm	32mm	26 x 31 x 37mm	6kg (Pair)

- Produced by Forging & CNC Machining
- Aviation Aluminium Alloy Body
- Aluminium Alloy Pistons
- 50.06 cm² Piston Area (26x31x37mm)
- 6kg Weight (Per Pair)
- 321 x 82.8 x 179mm Parameters
- High Temperature Oxidised Grey Coating
- Suits 17, 18 & 19" Rims
- Suits 332-378 x 32mm Discs
- Common Brake Pad Size - 152 x 54 x 18mm
- Designed Specifically for Racing
- M10x1 Connector

Disc	Size A	Size B	Size C	Size D
332x32 mm	196	171.30	118.60	111.40
355x32 mm	203	182.80	130.10	122.90
378x32 mm	211	194.30	141.60	134.40

Brake Pads

Utilises the same brake pads as

AP9660 18mm
